Re: Tri State Community Clinic

The Board of Vanderburgh County Commissioners are delighted to announce that Tri State Community Clinics will be operating the clinic starting January 2018. The agreement with Tri State Community Clinics will provide three locations; in the Civic Center Complex, on the North and West Side of Evansville. The North and West side locations are being finalized. Tri State Community Clinics will be managing all locations and are in the process of staffing the locations. The agreement is for three years, and the costs are capped. Which will mean significant saving over the current agreement. Tri State Community Clinics will provide eligible employees and their dependents with quality health care and reduced costs. More information to follow once all the details are finalized.

Bruce Ungethiem, President
Vanderburgh County Commissioner
