Why a Clinic?

Insurance Premiums keep going up!

Average Annual health Insurance Premiums and Worker Contributions for Family Coverage, 2006-2016

Source: Kaiser/HRET Survey of Employer-Sponsored Health Benefits, 2006-2016

Barriers to Health

- Busy Lives
- Inconvenience
- In-Office Wait Time
- Trip to the Pharmacy/Lab
- Out-of-Pocket Expenses

The Solution

- Break Down the Barriers to Health!
- Convenient – little to no wait time, no paperwork
- No out-of-pocket expenses for Visits
- No out-of-pocket expenses for Medications
- No out-of-pocket expenses for Lab Work

What We Do

- Provide routine primary care services, physicals and acute care services for employees, spouses and their dependents
- Focus on identifying, preventing, and maintaining chronic diseases
- Provide “health coaches” promoting individual accountability and ownership in healthy lifestyle changes.

Who is Eligible and What is Offered

Available to employees and dependents who participate in group health insurance plan.

- Infections
- Asthma
- Allergies
- Injuries
- Minor procedures
- Physicals of all types
- High Blood Pressure
- High Cholesterol
- Diabetes
- Depression and Anxiety
- COPD
- Thyroid Diseases

A variety of mostly generic medications will be available from the clinic and medications not stocked can be prescribed.

No Cost for Visits, Medications, or Lab Testing!

What to expect

- Transition of care to Tri State Community Clinics
 - Last patient day – December 21st
 - Re-opening day – January 3rd
 - Familiar faces
- New locations to meet your families needs
- Electronic medical records will be provided from the previous clinic manager
- You may also request to have these records sent to your physician

FAQs

- If you have a primary care provider, we will work with them and if you don't, our providers are ready to fill that role.
- Referrals will be made and coordinated for services needed outside the **Clinic**.
- At your request, all medical records and lab tests can be sent to your health care provider.
- Secure electronic medical record protects your confidential medical information.
